

Year R Homework Grid

Each week, please complete one of the activities from the grid below. Don't forget to take a photo and upload it to Tapestry to help us celebrate what you are getting up to at home.

Activities you might like to do at home:

Building a Bug Hotel

As we have been planting lots of seeds recently, try and build a bug hotel to encourage wild life to move into your garden (or our garden at school!)

Mark Making

On a sunny day, take some paint brushes and water outside in the garden. Encourage name writing. Talk about the shapes of the letters. If it's a particularly warm day (soon hopefully!), talk about what happens to the marks when they begin to dry out.

Super-vegetable!

Make your own super-vegetable to help Supertato defeat Evil Pea!

Shape Hunt

Look for shapes in your environment - remember the difference between 2D and 3D... 2D flat, 3D fat!!

Signs of Spring hunt!

Go on a walk in your local area or to your favourite park - what do you notice? Take the opportunity to discuss the change in seasons and what we might start to see more of in Spring. Our new topic is 'Growing' so this will help at school!

Picnic

When you go on your 'Signs of Spring Hunt' or 'Shape Hunt' why don't you prepare a picnic with your favourite foods (and Superfruit and Superveg!!). Enjoy some time with your family. Perhaps you could write an invitation or a menu for your picnic guests?!

Escape the April Showers!

In England, there is no doubt there will be some very showery days in April. You could use blankets and cushions to build a den for you and your teddies. Ofcourse, if the weather allows - get outside!

Learn a new skill!

This could be tying your shoelaces, zipping up your coat or making your bed. Remember the Mrs Allen challenge - laces by the end of Year R!!

Listen to Story

One of our stories for this half term is Supertato! [Listen to it here](#). What was your favourite part? Were there any parts you didn't like?
